

Titel	Transnational Mobility in Initial Vocational Education and Training in 2017 - Survey of firms providing training			
DOI	10.7803/386.17.1.2.10			
Short description	In 2017, the National Agency at the Federal Institute for Vocational Education and Training (BIBB) conducted a mobility study on apprentices' stays abroad. Firms providing training were surveyed. In addition to the firms providing training, the study also surveyed apprentices in their final year of training as well as school headteachers and graduating classes from vocational schools.			
Survey year	2017			
Survey unit	Firms			
Thematic topic	Stays abroad during vocational training			
Data access	Remote Access (for full-text, special or regional variables)			
Number of variables	GWA: 249	VT:	SV:	REG:
Population	Firms providing training in Germany			
Weighting/extrapolation	No			
Representative region	None			
Number of cases	120			
Survey mode	Online survey			
Selection procedure	Proportionally stratified random selection			
Survey design	Cross-sectional design
