

Titel	Transnational Mobility in Initial Vocational Education and Training in 2017 - Survey of apprentices			
DOI	doi:10.7803/383.17.1.1.10			
Short description	In 2017, the National Agency at the Federal Institute for Vocational Education and Training conducted a mobility study on apprentices' stays abroad. Apprentices in their final year of training were surveyed. In addition to apprentices, the study also surveyed firms providing training as well as school administrators and graduating classes of vocational schools.			
Survey year	2017			
Survey unit	Apprentices			
Thematic topic	Stays abroad during vocational training			
Data access	Scientific-Use-File	Remote Access (for full-text, special or regional variables)		
Number of variables	SUF:258	VT:23	SV:27	REG:20
Population	Apprentices and vocational students who are in the final year of their initial vocational training in 2017			
Weighting/extrapolation	Weighting according to federal state-specific graduate numbers			
Representative region	Federal State			
Number of cases	5,394			
Survey mode	Online survey			
Selection procedure	Proportionally stratified random selection			
Survey design	Cross-section design
