

Codebook of the Scientific Use File (SUF) of the harmonized data set of the BIBB/BAuA employment survey (H-ETB)

Research Data Centre at BIBB (BIBB-FDZ)

April 2024

The data set includes variables from the years 2006, 2012 and 2018. The exact questions can be found in the questionnaires of the individual surveys:

BIBB/BAuA employment survey 2006 : [to the documentation](#)

BIBB/BAuA employment survey 2012 : [to the documentation](#)

BIBB/BAuA employment survey 2018 : [to the documentation](#)

Question:

At the beginning of some of the questions on the variables listed below, the abbreviations “Mod 2012” are included. This indicates that the questions were modified in 2012 compared to 2006. The same applies to the abbreviation “Mod 2018”.

Filters:

Indicates the conditions under which the question was asked. If the specified filter condition was met, the question was asked. Missing values due to this filter condition were coded with “-1 filter”.

Value label:

Indicates the coding of the variable or the answer categories of the question. The value labels for variables with more than 20 values are not shown in the codebook.
